JOB POSTING

Lab Instructor – Cardiology Technologist Program

Overview:

Stenberg College is an industry leader with an excellent reputation amongst health care and human service professionals. We take pride in everything we do and truly care about the success of our students.

Employment Type: Part-time Contract **Location:** Halifax, NS (Dalhousie University)

We are currently seeking Registered Cardiology Technologists to join our faculty of Lab Instructors within our Cardiology Technologist Program in Halifax, NS. This role would be responsible for delivering the core content of a full curriculum that has been developed with the outlined responsibilities below.

Responsibilities:

- Demonstrate lab skills as necessary in ECG, ETT and Holter analysis
- Assist with all demonstrations scheduled during each lab session and assist in preparing students for the hands-on practice session
- Excellent communication and collaboration with the Lead Lab instructor and other instructors
- Actively observe and check in with assigned students working in the lab and answer all questions put forward by the students
- Evaluate students in accordance with specified criteria and complete detailed written evaluations on each student as required
- Provide feedback to students in the moment and question students to ensure they have a full understanding or expectations
- Participate in the lab debriefing session with the students – highlight student strengths, areas for improvement, correct procedures, etc.

The schedule is as follows:

- Time: 5:00-10:30pm weekdays & 10:00am-4:00pm or 6:00pm on weekends
- Dates: **June 26th - July 17th** and **August 20th – September 24th**
 - Please note, labs run seven-days per week with designated days off. Instructors will be asked to confirm their ability of 2-3 shifts per week.

Requirements:

- Minimum of 3 years relevant and recent work experience as an RCT.
- Current CPR-C certification or equivalency training.
- Member in good status with provincial association.
- Previous preceptor training experience is an asset.

If you are passionate about sharing your knowledge, skills and abilities to future Cardio Techs, we want to hear from you!

Qualified candidates are invited to forward a resume and cover letter to careers@stenbergcollege.com, with “Cardio Tech Instructor – Halifax” in the subject line. To learn more about our school, please check out our website at www.stenbergcollege.com.

Please note that only those candidates who are shortlisted will be contacted for an interview
